In the Footsteps of Sheep: Tales of a Journey Through Scotland, Walking, Spinning, and Knitting Socks

by Debbie Zawinski

In the Footsteps of Sheep details the completion of a mission the author, a Welsh-born Scot, set for herself: to travel and camp throughout Scotland, find cast off tufts of wool from 10 Scottish sheep breeds, then spin the wool on her spinning stick while walking (or waiting for ferries), and finally design and knit one pair of socks to represent each breed...all the while writing about her adventures and taking plenty of photographs. Debbie has written beautifully about her journey; the hills, shorelines, and bogs explored; the sheep and people she met along the way; weather both foul and fair, and a particularly exciting chapter about the intriguing St Kilda archipelago and its feral Soay and Boreray sheep. The eleven sock patterns, one at the end of each chapter, are a bonus and, for those of us unable to gather and spin our own fleece, all were test-knitted with commercial wool. The designs are knitted from top to toe with different motifs, among them color-patterns, cables, spirals, stripes, Kilt Hose with top-turnovers, and a pair of baby booties.

The Hebrides: By the presenter of BBC TV's Grand Tours of the Scottish Islands

by Paul Murton

Paul Murton has spent half-a lifetime exploring some of the most beautiful islands in the world - the Hebrides. He has travelled the length and breadth of the Scotland's rugged, six-thousand-mile coast line, and sailed to over eighty islands.

In this book Paul visits each of the Hebridean islands in turn, introducing their myths and legends, history, culture and extraordinary natural beauty. In addition he also meets the people who live there and learns their story. He has met crofters, fishermen, tweed weavers, Gaelic singers, clan chiefs, artists, postmen and bus drivers - people from every walk of life who make the islands tick. This blend of the contemporary and the traditional creates a vivid account of the Hebrides and serves as a unique guide to the less well known aspects of life among the islands.
