Roman Britain: A New History

by Guy De La Bedoyere

This lively, authoritative account of a crucial period in Britain's history has been revised and updated to incorporate the very latest findings and research. Guy de la Bedoyere the popular face of Romano-British archaeological studies puts the Roman conquest and occupation within the larger context of Romano-British society and how it functioned. With nearly 300 illustrations and dramatic aerial views of Roman sites, and brimming with the very latest research and discoveries, Roman Britain will delight and inform all those with an interest in this seminal epoch of British history.

Pax Romana

by Adrian Goldsworthy

The Pax Romana is famous for having provided a remarkable period of peace and stability, rarely seen before or since. Yet the Romans were first and foremost conquerors, imperialists who took by force a vast empire stretching from the Euphrates in the east to the Atlantic coast in the west. Their peace meant Roman victory and was brought about by strength and dominance rather than co-existence with neighbours. The Romans were aggressive and ruthless, and during the creation of their empire millions died or were enslaved. But the Pax Romana was real, not merely the boast of emperors, and some of the regions in the Empire have never again lived for so many generations free from major wars. So what exactly was the Pax Romana and what did it mean for the people who found themselves brought under Roman rule? Acclaimed historian Adrian Goldsworthy tells the story of the creation of the Empire, revealing how and why the Romans came to control so much of the world and asking whether the favourable image of the Roman peace is a true one. He chronicles the many rebellions by the conquered, and describes why these broke out and why most failed. At the same time, he explains that hostility was only one reaction to the arrival of Rome, and from the start there was alliance, collaboration and even enthusiasm for joining the invaders, all of which increased as resistance movements faded away. A ground-breaking and comprehensive history of the Roman Peace, Pax Romana takes the reader on a journey from the bloody conquests of an aggressive Republic through the age of Caesar and Augustus to the golden age of peace and prosperity under diligent emperors like Marcus Aurelius, offering a balanced and nuanced reappraisal of life in the

Roman Empire.

Caesar's Footprints: A Cultural Excursion to Ancient France: Journeys Through Roman Gaul by Bijan Omrani

Julius Caesar's conquests in Gaul in the 50s BC were bloody, but the cultural revolution they brought in their wake forever transformed the ancient Celtic culture of that country. After Caesar, the Gauls exchanged their tribal quarrels for Roman values and acquired the paraphernalia of civilized urban life. The Romans also left behind a legacy of language, literature, law, government, religion, architecture, and industry.

Each chapter of Caesar's Footprints is dedicated to a specific journey of exploration through Roman Gaul. From the amphitheatres of Arles and Nîmes to the battlefield of Châlons (where Flavius Aetius defeated Attila the Hun) Bijan Omani?an exciting and authoritative new voice in Roman history?explores archaeological sites, artifacts, and landscapes to reveal how the imprint of Roman culture shaped Celtic France?and thereby helped to create modern Europe.

Roman Conquests: Gaul by Michael Sage

Ever since their sack of Rome in the early fourth century BC, the various tribes of Gauls to the north were among the Roman Republic's most feared and respected foes. This book describes how Roman armies eventually carried war into their enemies' homelands and brought them into their expanding empire. Michael M Sage relates the establishment of Rome's first footholds in Gallic territory, before moving onto Julius Caesar's dazzling seizure of all Gaul in the space of a few years. Caesar's army repeatedly defeated much larger armies drawn from a fierce warrior culture. These, the most famous of all Roman campaigns of conquest, are described and analysed in great detail, as are the events of Vercingetorix's great rebellion which almost succeeded in throwing off Roman rule before it could be consolidated. Caesar's epic siege of Alesia provides a dramatic climax.

Under Another Sky: Journeys in Roman Britain by Charlotte Higgins

Shortlisted for the 2013 Samuel Johnson Prize, the Thwaites Wainwright Prize and the 2014 Dolman Travel Book Award This is a book about the encounter with Roman Britain: about what the idea of

'Roman Britain' has meant to those who came after Britain's 400-year stint as province of Rome - from the medieval mythographer-historian Geoffrey of Monmouth to Edward Elgar and W.H. Auden. What does Roman Britain mean to us now? How were its physical remains rediscovered and made sense of? How has it been reimagined, in story and song and verse? Charlotte Higgins has traced these tales by setting out to discover the remains of Roman Britain for herself, sometimes on foot, sometimes in a splendid, though not particularly reliable, VW camper van. Via accounts of some of Britain's most intriguing, and often unjustly overlooked ancient monuments, *Under Another Sky* invites us to see the British landscape, and British history, in an entirely fresh way: as indelibly marked by how the Romans first imagined, and wrote, these strange and exotic islands, perched on the edge of the known world, into existence.

The Wall : Rome's Greatest Frontier

by Alistair Moffat

Hadrian's Wall is the largest, most spectacular and one of the most enigmatic historical monument in Britain. Nothing else approaches its vast scale: a land wall running 73 miles from east to west and a sea wall stretching at least 26 miles down the Cumbrian coast. Many of its forts are as large as Britain's most formidable medieval castles, and the wide ditch dug to the south of the Wall, the vallum, is larger than any surviving prehistoric earthwork. Built in a ten-year period by more than 30,000 soldiers and labourers at the behest of an extraordinary emperor, the Wall consisted of more than 24 million stones, giving it a mass greater than all the Egyptian pyramids put together. At least a million people visit Hadrian's Wall each year and it has been designated a World Heritage Site. In this new book, based on literary and historical sources as well as the latest archaeological research, Alistair Moffat considers who built the Wall, how it was built, why it was built and how it affected the native peoples who lived in its mighty shadow. The result is a unique and fascinating insight into one of the Wonders of the Ancient World.
