in order to gain insight about Welsh history.

This 17-day tour begins and ends in <u>Cardiff</u>, the capital and largest city of Wales, and is a combination of guided tours and free time so you can explore the charming towns at your own pace. We will spend nights in several Welsh cities, towns and villages:

- <u>Cardiff</u> is the capital of Wales, surrounded by beautiful scenery at its location on the Bristol Channel at the mouth of the River Taff. From its historical humble beginnings as a <u>Roman fort</u> and small town throughout the middle ages, the city has developed significantly over the last 200 years playing a key role in Welsh history as an industrial center. Today modern Cardiff continues to serves as the country's center of commerce and the prime hub of cultural, political and media institutions.
- <u>Llanelli</u> is a coastal town situated on the northern bank of the Loughor River, on the Bristol Channel, Wales. Established as a small village in the 600's, it is today the largest town in the county of Carmarthenshire with a long association with mining industries, especially as the world's biggest producer of tinplate. With the gradual decline of the town's heavy industry in the 1970s, the natural environment of parks and wetlands has since been regenerated into diverse and flourishing attractions.
- <u>St Davids</u> is a historic city located within the stunning Pembrokeshire Coast National Park near the tip of St Davids Peninsula, the most westerly point in Wales. The smallest city in Great Britain, consisting of four streets that meet in the ancient marketplace Cross Square, it has more of a charming feel like that of a large village. Yet despite its small space, as the birthplace of St David, the patron saint of Wales, the city holds a vast amount of history waiting to be explored.
- <u>Aberystwyth</u> is a small ancient market town and stunning seaside resort in Ceredigion on the west coast of Wales. Established as a castle town in the Middle Ages, the town has developed over the centuries first into a major port, then a centre of culture and education in Wales and famous for its Edwardian architecture and scenic coastal railway. Today it is a popular sea-side holiday

destination attracting tourists to relax within its picturesque scenery and at its numerous hotels, cafes, restaurants, bars and pubs.

- <u>Beaumaris</u> is a seaside community and former county town of the island of Anglesey, Wales. The site is famous for the Beaumaris Castle, Edward I of England's architectural masterpiece built from 1295 to protect his territorial gains in the region. The fascinating castle is a UNESCO world heritage listed site considered to be one of the most significant and sophisticated surviving examples of medieval military architecture.
- <u>Llanbaris</u> is a lakeside village in Gwynedd, northwest Wales, on the southern bank of Llyn Padarn at the foot of the magnificent Snowdon, the highest mountain in Wales. The area has a long history spanning back 1000 years, initially as the location of a strong defensive castle for native Welsh princes, and later as an industrial centre for slate mining. Today it is an attractive tourist location and centre for outdoor activities, renowned for its beautiful scenery that can explored via hiking, mountain biking, pony riding, or amazing railway trips.
- <u>Llangollen</u> is a small market town in Denbighshire, North Wales. It is renowned for its tumbling river and surrounding hills, situated on the south bank of the River Dee in the narrowest stretch of the Dee Valley, to be enjoyed via railway train journeys, boat trips, and motor passes. Visitors can also travel back in time by exploring historic sites such as Castel Dinas Bran, Valley Crucis Abbey, and the Plas Newydd estate. In addition, one can experience a range of pleasant cafes, bars, hotels, restaurants, guest houses, and cottages, as well as frequent festivals.
- <u>Shrewsbury</u> is a large market town, the county town of Shropshire, England, located 9 miles (14 km) east of the Welsh border. The town has an impressive history, with a medieval street plan that is largely unspoiled and over 660 historically listed buildings to admire. Significant architectural interests include the 15th and 16th century timber-framed houses, a number of Georgian and Regency houses, the stained glass of St Marys church, and the old buildings of Shrewsbury School (1552), now

in use as a library and museum.

• <u>Crickhowell</u> is a small market town in South Wales, located in the beautiful Usk Valley, to the south of the Black Mountains within <u>Brecon Beacons National Park</u>. The town is a popular tourist location from which to experience the scenery of Brecon Beacons and partake in enjoyable outdoor activities such as hiking, mountain-biking, rock climbing, fly-fishing and more. While a tour of Crickhowell itself reveals a range of attractive ancient sites that tell of the town's interesting history from a castle settlement to picturesque town.

Tour Highlights

Explore the Many Castles of Edward I.

Wales had enjoyed a cultural and political autonomy ever since the 8th century Offa's Dyke geographically separated the Britons of the west (Wales) from the Germanic tribes of the east (England). Wales itself consisted of several kingdoms at the time of the Norman Conquest.

In 1216, Llewelyn ap lorwerth of the Welsh kingdom of Gwynedd was recognised as overlord by the other Welsh rulers, and in 1218 he was acknowledged by the English crown. In Welsh chronicles, he is described as the "Prince of Wales". His grandson, Llywelyn ap Gruffudd, who marched into the lands controlled by Norman barons, was also recognised as such.

They would be the last Princes of Wales, as England's Edward I decided to go to war. In 1284, England annexed Wales, turning it into an English colony. Edward I had castles built to guard his new territories, but to also clearly communicate the power of English rule. These castles in Wales formed Edward's chain of fortifications called the Ring of Iron.

We will visit the grandest of these castles: <u>Caernarfon Castle</u>, Beaumaris Castle, and Conwy Castle.

Architectural Gems

Wales' rich history leaves a landscape dotted with architectural gems that survive to this day. We will explore **Cardiff Castle**, situated within beautiful parkland and originally a Roman fort, expanded by rulers through the centuries.

<u>St Davids</u> in South Wales is the United Kingdom's smallest city in terms of population, a cathedral city that was the final resting place of Wales' patron saint, St David, and an important pilgrimage site in medieval Wales. We will explore **St Davids Bishop's Palace**, an immense medieval palace that dates from the 13th century and is adjacent to the city cathedral.

We will take a boat cruise down the **Llangollen Canal** through beautiful countryside, via the amazing 18-arched **Pontcysyllte Aqueduct**, completed in 1805. Also in <u>Llangollen</u>, we will experience a ride on the **Llangollen Railway**, the only standard gauge heritage railway in North Wales. Opened in 1975, this is a 10-mile restoration of a longer line that originally reached Llangollen town in 1865.

We will also visit treasures dating from the 11th and 12th centuries: Shrewsbury Castle, a red sandstone castle that was founded in 1070, Shrewsbury Abbey, founded in 1083, and Valle Crucis Abbey (Valley of the Cross), founded in 1201 and one of Wales' best-preserved abbeys.

Natural Wonders

We'd be remiss not to spend some time appreciating Wales' incredible natural scenery. We will visit <u>Llanberis</u>, located at the foot of majestic Mt Snowdon and the centre for outdoor activities in the Celtic heartland of <u>Snowdonia</u>. We will experience this outdoor beauty on the Lon Las Peris walk, a section of which takes you by beautiful **Llyn Padarn**, a glacially formed lake in Snowdonia. We will visit Bala Lake, also called **Llyn Tegid**, the "Lake of Serenity", the largest natural lake in Wales.

On this tour, we will be walking a portion of the <u>Millennium Coastal Path</u> and enjoy a view of the **Gower Peninsula**, designated as the UK's first
