Singapore to Lisbon, Portugal by Train.

Program suspended until Ukraine resolved.

Odyssey offers an easy, convenient, and relaxed escorted small group tour across Asia to Europe on the world's longest rail journey.

For a small escorted group tour, we have structured the longest rail journey over a 56 nights program, with 20 multi night stops, typically of between 2 to 4 nights. A train route with a distance covered of just under

19,000 kilometres, that starts in Singapore and concludes in Lisbon, Portugal.

This and more are all waiting to be explored on this small group tours from Singapore to Lisbon designed for the senior traveller, led by experienced tour leader, and joined with enthusiastic, like minded people.

The train journey commences in Southeast Asia in Singapore, from where this small escorted group of up to 10 travellers continues their train travel up through Malaysia. This train journey has the group changing trains three times in Malaysia, though we enjoy 2 nights in Kuala Lumpur after Singapore, before crossing into Thailand and onto Bangkok. There is a 4-night break in Bangkok, as the group explores the colonial history of the Dutch, Portuguese as well as Spanish, with visits to the UNESCO world Heritage site of Ayutthaya.

After Bangkok, we take the train service for the full day through the lush Southeast Asia landscapes across the Cambodian border and through to Siem Reap. The group spends time in the capital city, absorbing the blend of culture influences, before taking a boat up to Angkor Wat.

Angkor Wat, located in northwest Cambodia, is the largest religious structure in the form of a temple complex in the world by land area, measuring 162.6 hectares, bigger than Paris. At the centre of the temple stands a quincunx of four towers surrounding a central spire that rises to a height of 65 m above the ground. We spend 2 nights in Angkor Wat before returning to the capital and re-commencing our train travel onto Ho Chi Minh city. We are at day 13 on the longest train journey and already much has been seen and experienced as we travel through the landscape. The passenger train network in Vietnam carries through with stops and allows time to explore ancient and colonial pasts, for some 6 days, including a rest day. After Hanoi in the North, the landscape and climate changes, as we cross into China, enjoying the train service through to Beijing. Beijing is a transition point, as we pivot and head west after 3 nights exploring the capital, home to more than 20 million

people.

The groups train ticket for here is on the trans-Siberian express through China, Mongolia and Russia to Moscow. We pause in some of the best places along this route, which is one of longest train ride in the world, the trans-Siberian railway.

The distance covered on this section of the train ride is vast. We explore Mongolia and Russia's natural beauty, and heritage by rail, its World Heritage Sites, and world-famous cities, all with some truly spectacular scenery along the way to Moscow.

This train ride then traverses the world's largest landmass, the Euro-Asian Continental Plate, taking the traveller from Ulaan Baatar to Moscow via some of the world's most remote areas on the trans-Siberian railway. The small group travels across Western Mongolia to the Mongolian steppe and then to the vast expanse of the Siberian taiga and tundra; over the Ural Mountains (the divide between Asia and Europe) to Moscow. and the waterways of Russia's medieval Golden Ring. We also make a side trip to Lake Baikal, the world's deepest lake. Discover the Russian capital on a train ride on the Moscow Metro and experience Siberia's traditions and culture while in Irkutsk. The group also stops at Krasnoyarsk, Omsk and Yekaterinburg for several nights each time before reaching Moscow.

After Moscow, our journey goes to Berlin, then South to Paris, for a 2 night break and we source tickets for an event for the evening. Changing Trains onto the TGV network onto the deep south of France to Hendaye. Then Bilboa for 2 nights, including time at the Guggenheim. Through to Madrid for 3 nights, before finally heading to Lisbon for 4 nights, where the tour concludes.

This is a long tour, with a lot of landscape to pass through. It is the longest train journey you can book taking in some of the best places, as countries are traversed. With some 20 multi night stops along the way, with typically one non group activity day per week to allow you to recharge, we think this is a great example of slow travel with learning. Odyssey has been offering and operating small group tours of the trans-Siberian express for many years, this as one of the longest rail journeys

you can book is for us an extension building on our knowledge of the train travel experience that we have to date to support you.

The city's close proximity to the Mongolian border and well established transport links in to Asia have allowed the city to form a unique cultural identity as the center of Buddhism in Russia.

Ulan-Ude was originally a Cossack fort built in 1666, as a waypoint on the Chinese tea caravan route. It was renamed Ulan-Ude in 1934, and remained a closed city until 1980 due to its mysterious military facilities.

Ulan-Ude is now a sort of stepping-stone to Mongolia: a great many of its citizens are ethnic Mongols and the local Buryat culture and [cuisine](#) is similar to that of Mongolia. Its brand of Buddhism is even Tibetan by way of Mongolia.

We have a local guide share their knowledge with us as we explore the city and its history.

Baikal's coastline measures 1300 miles, with 27 islands dotted across the lake. More than half the species found on these

islands and in Lake Baikal are unique only to this place.

Locations: Irkutsk

Overview:

Irkutsk, city and administrative centre of [Irkutsk oblast](#) (region), east-central [Russia](#). The city lies along the [Angara River](#) at its [confluence](#) with the Irkut River. It was founded as a wintering camp in 1652, during the first Russian colonization of the area; a fort was built in 1661, and Irkutsk rapidly became the main centre of Cisbaikalia and of the Russian trade route to [China](#) and [Mongolia](#). It acquired town status in 1686. Its importance grew after the coming of the [Trans-Siberian Railroad](#) in

1898.

Modern Irkutsk is one of the major industrial cities of [Siberia](#) and is especially noted for a wide range of engineering products. There are railway, aircraft, ship, and vehicle repair yards. The city of Irkutsk, with attractive embankments along the river and many surviving wooden houses on its tree-lined streets, is an administrative and cultural centre for Eastern Siberia and of the Russian Far East.

Day 34

Locations: Krasnoyarsk

Overview:

The city stands on both banks of the [Yenisey River](#) where the river is crossed by the [Trans-Siberian Railroad](#). One of the earliest Russian settlements in Siberia, it was founded as the fort of Krasny Yar in 1628 on the left bank of the Yenisey. The extension of the Great Siberian Post Road to this point in 1735 spurred Krasnoyarsk's development as the chief town of central Siberia. The discovery of [gold](#) in the area in the 19th century further accelerated its growth. After the arrival of the Trans-Siberian Railroad in the 1890s, Krasnoyarsk developed rapidly and

Singapore to Lisbon by train

<https://www.odysseytraveller.com>

spread onto the right bank, where it now extends for more than 18 miles (29 km) along the river. Krasnoyarsk's industrial growth was further stimulated by the evacuation to the town of many factories from the west in [World War II](#). In the 1960s one of the largest hydroelectric stations in the world was constructed there on the Yenisey. During the 1980s a missile-tracking radar station was built near Krasnoyarsk. The Soviet government admitted in 1989 that the station was built in violation of the [Treaty on Anti-Ballistic Missile Systems](#) and in 1990 agreed to dismantle it.

We arrive in the morning and transfer to the hotel. There will be a break and a room made available to freshen up in if our hotel rooms for the next 2 nights are not available.
