especially designed to be suitable for mature-aged and senior travellers, whether joining as a couple or as a solo traveller.

Over 21 days we will travel from Istanbul to Cappadocia, exploring and learning with our tour leader and tour guide about the ancient world through to the Ottoman empire and the power of the Ottoman Sultan in building some of the greatest monuments. On our Cappadocia tour we visit its 'fairy chimneys', large rock spires that rise from the earth like mushrooms, formed over millions of years by the erosion of volcanic rock. We go on a Pamukkale tour, see the ancient ruins of Ephesus and the mosques in Turkey, and view the Aegean Sea, with our terrific local guide sharing with you both the ancient and contemporary history and scenery of this incredibly diverse nation. The tour stops in nine key places that have played pivotal roles in the development of Turkey including the Gallipoli peninsula. Typically our Turkey travel group stop for more than one night in our destinations—1 to 4 nights of hotel stay or other type of accommodation before travelling to our next point of interest. A combination of day trip, city tour, shore excursions, and overnight trips, this Turkey tour promises to be a memorable trip and an amazing travel experience.

At the crossroads between Europe and Asia, Turkey's fascinating history spans thousands of years and includes the history of both Anatolia (the Asian part of Turkey) and eastern Thrace (the European part of Turkey). It thus consists of a rich patchwork of overlapping eras, empires, and civilisations. Each civilisation has in turn left a plethora of monuments, ruins and lasting cultural legacies all contributing to the character of modern Turkey. Part of the Fertile Crescent, it was one of the first lands to witness the birth of agriculture, the domestication of animals, and the first settlement of several thousand people – at Çatalhöyük circa 6500 BCE. The land in ancient times was dominated by several Anatolian empires before the Greeks, Persians and Romans took hold throughout the classical era. In the middle ages it stood as the seat of the Byzantine Empire, but by the 11<sup>th</sup> century, Turkish nomads from Central Asia had moved through the region gradually conquering all of Asia Minor, ushering in the Seljuk and then the Ottoman Turkish Empires. Since the end of World War One and the fall of the Ottoman Empire, Turkey has transformed into the vibrant, modernizing, secular state it is today.

## Small group tours Turkey Itinerary

The program's itinerary takes in many of the most famous sites and sights of the ancient world. Istanbul is one of the world's oldest cities and has been at the centre of civilisation for centuries. We visit a UNESCO World Heritage Site, the Blue Mosque, a beautiful structure built between 1609 and 1616 by Sultan Ahmed during the age of the Ottoman Empire to house his tomb. The Mosque features six spectacular minarets, the culmination of two centuries of the Ottoman empire committed to building this mosque. You will see the Greek theatres in Pergamon, the legendary Greco-Roman city of Ephesus.

We enjoy a cruise on the Bosphorus strait, viewing both the European and Asian shores of Istanbul. The Bosphorus strait is a beautiful and important waterway that has a long history, beginning at least as early as the 5th century BC, when in the ancient world, the city-state of Athens depended on it for grain imports from Scythia.

In Antalya we have some free time in to explore this old city and marina. You may want to stroll around exploring shops, cafes and restaurants, or walk down to the local beach for a dip in the Mediterranean Ocean. In Saralti, we visit its underground city. ## Day 2

**Locations:** Istanbul

**Overview:**

Today we will take a field trip to discover the ancient world treasures of Istanbul, the sprawling metropolis where Europe and Asia collide. The city has a rich and textured history that dates back over 3000 years. Originally named Lygos, it was colonised by the Greeks in the 7th century BC, and was known as Byzantium until AD 330, when it was made the new capital of the Roman Empire and renamed Constantinople. The city grew to be the largest in the western world during late antiquity. After the Muslim conquest in 1453, Constantinople became the capital of the Ottoman Empire. It was finally renamed Istanbul when the Republic of Turkey was founded in 1923.

Our itinerary starts with an escorted tour to the Hippodrome Square, built by the Romans in the 2nd century AD as the site of horse racing and chariot racing. It was the centre of the city's social life during the Byzantine period. We then visit the Hagia St Sophia Church, constructed by Byzantine Emperor Justinian I in 1532 and considered the pinnacle of Byzantine architecture. It was the world's largest cathedral for over a thousand years. Over the centuries it has served as a Greek Orthodox Church, a Roman Catholic cathedral and an imperial mosque.

Finally we visit the Blue Mosque, a beautiful structure built between 1609 and 1616 by Sultan Ahmed during the Ottoman reign to house his tomb. The Mosque features six spectacular minarets, the culmination of

two centuries of Ottoman empire mosque development.

We return to our hotel in time for dinner.

**Day 3**

**Locations:** Istanbul

**Overview:**

After breakfast, our tour guide will take us to the Topkapi Palace, a 15th-century structure built not long after the Muslim conquest to house the Ottoman sultans. Next, we head to the Grand Bazaar, one of the largest and oldest markets in the world. Another relic of the Ottoman Empire, the Bazaar was originally constructed as part of an initiative to stimulate economic activity in Constantinople. Its earliest trade was in textiles and jewels.

Finally, before returning to our hotel, your small group tour visits the Underground Cistern Basilica, the largest of the several hundred cisterns that lie beneath the city. Originally built in the 6th century AD, the cistern was repeatedly renovated and eventually provided water to many of the city's grand buildings, including the Great Palace of Constantinople and the Topkapi Palace.

**Accommodation:**

Armada Hotel or similar

**Day 4**

**Locations:** Istanbul

**Overview:**

This morning we will take a cruise along the Bosphorus strait, the narrow stretch of water that connects the Black Sea to the Sea of Marmara. Along the coast there are many beautiful waterfront houses, most of which were built during the Ottoman period. The Bosphorus and

the Dardanelles form the Turkish Straits, separating Asian Turkey from European Turkey. As part of the only sea route between the Black Sea and the Mediterranean, the Bosphoros straits have been commercially and militarily important for millennia. Their significance was one of the main reasons the Romans chose to build their new capital there in 330 AD. On this cruise we will view both the European and Asian shores of modern day Istanbul.

**Accommodation:**

Armada Hotel or similar

**Day 5**

**Locations:** Istanbul – Ankara

**Overview:**

This morning we leave Istanbul and we head to Ankara, the capital of Turkey, and visit the Anatolian Civilization Museum. On arrival in Ankara you will have some free time to explore the city on your own or join the local guide for a short walk. Our local tour guide will give you information regarding restaurant options in the area for dinner tonight.

Ankara was the headquarters of Kemal Ataturk's Turkish nationalist movement, which sought to wrest control of Anatolia from the victorious Allies after the First World War. After the Turkish War of Independence, Ankara replaced Constantinople as the capital of the new Republic of Turkey. The city is divided between old and new sections. The old ancient city section features many Byzantine, Roman and Ottoman buildings.

## Day 6

**Locations:** Ankara

### Overview:

Today we drive to Bogazkale, the ancient civilization capital of Hittite Empire and named Hattusas. The settlement dates back over 6000 years. The Hittites established their empire in Anatolia around 1600 BC. They constructed huge fortifications around Hattusa, and our first stop is at the Lion's Gate, one of only six passages into the ancient city. The gate gets its name from the two lions on either side of it, carved out of huge blocks of stone, and intended to scare away evil spirits from the city.

We climb up to the Tunnel King's Gate, or 'gate in the ground', a 70 metre long passageway underneath the city walls, which we can walk through. We then visit the Citadel, which served as the seat of the Hittite kings. Situated at the highest point of the ancient city, it offers stunning views of the surrounding landscape. Finally, we visit the Grand Temple. Built in the 14th century BC, the temple stood as a dedication to the Hittite gods, and only rulers and priests were granted entry.

Today's lunch is cooked by local women from the small village, with a chance to try a range of fresh genuine Turkish traditional dishes.

After lunch, for those who wish, we have a chance to visit the small local museum.

We drive back late afternoon, arriving back at the hotel in time for dinner.

## Day 7

**Locations:** Ankara - Cappadocia

### Overview:

This morning we depart for Cappadocia, a beautiful, otherworldly region of central Turkey. Before leaving Ankara we visit the Mausoleum of

Kemal Ataturk.

Cappadocia was once the homeland of the Bronze Age Hittites, who knew it as Hatti. Later it was ruled by Persian kings, Romans and Ottomans. The area contains several underground cities, once used as refuges by persecuted Christians and ancient cave dwellers. However, Cappadocia's most arresting attractions are its 'fairy chimneys', large rock spires that rise from the earth like mushrooms, formed over millions of years by the erosion of volcanic rock.

Before we get to our cave hotel, we stop at Saralti to visit the underground city, with 3 levels that can be visited (there are 7 in total).

We arrive at our hotel in time for dinner.

(B, L, D)

**Accommodation:**

3 nights at Yunak Cave Hotel or similar

**Day 8**

**Locations:** Cappadocia

**Overview:**

For those who wish, there is an optional hot air balloon ride early this morning. (Additional cost. This activity is weather dependent and may not be possible at the time, please check with the tour manager).

Today we visit the Goreme Open Air Museum, a vast complex of ancient monasteries carved into the rocky landscape. Once a Byzantine monastic settlement, by the 17th century it had become an important pilgrimage site. We then head to Love Valley, euphemistically named for its distinctive rock structures. We also make a quick stop at Devrent Imagination Valley, which is home to very interesting fairy chimney formations, including one that looks like a camel.

If the group is interested, we have an optional stop at a pottery factory and shop, where you will be given a demonstration and the process from clay to the finished piece.

Lunch today is at a family-owned restaurant/home, where you will have a chance to learn about local dishes. They even have their own

cookbook, available to purchase!

(B, L)

**Accommodation:**

Yunak Cave Hotel or similar

**Day 9**

**Locations:** Cappadocia

**Overview:**

Today we visit more breathtaking Cappadocian landscapes. After breakfast, we head to Zelve Valley, which is an open air museum with a large cave settlement. The small area has fifteen Byzantine-era cave churches and remained a Turkish village until 1960. We then move on Pasabag, where giant pillar-like fairy chimneys rise from the earth. Sometimes known as Monks Valley, its chimneys once housed hermits who sought to distance themselves from the world.

For lunch, we visit Uchisar, a natural citadel full of stairs, tunnels and passages, located at the highest point in Cappadocia. We will have lunch in a unique Fairy Chimney restaurant.

For those who are interested, we will offer you a visit to a Jewelry shop with unique and custom, handmade pieces, including the stones of Turquoise and Zultanite.

On our way back to the hotel we visit Pigeon Valley, named for the many pigeon houses carved into the rocks. Pigeons were once used in the region as message carriers, though few remain today.

Before tonight's dinner, we head out to experience a ceremony of the Whirling Dervishes. Performed in an ancient Caravanserai that was once used along the Silk Road you will be mesmerized by the location as well as the Dervishes as they share their religious enlightening ceremony with you.

## Day 10

**Locations:** Cappadocia - Konya

### Overview:

This morning we depart for the Ihlara Gorge, a 100m deep canyon formed over thousands of years by the Melendiz River. It is estimated that around 80 000 people once lived in the Ihlara Valley. These days it is one of the best hiking spots in Turkey. We enjoy a pleasant morning walk along the valley floor next to a fast-flowing stream. We'll enjoy a morning tea by the river. We continue on to Konya where we will enjoy lunch together and visit the Sultanhanı Caravanserai, which is one of the largest and best-preserved Seljuk caravanserai in Turkey. We also visit Mevlana Museum. The museum is the mausoleum of Rumi, a 13th century Persian Sufi mystic, poet and Islamic scholar. His 'Masnavi', written in the city of Konya, is thought to be one the greatest poems in the Persian language.

Its most famous resident was the Greek mathematician and astronomer Apollonius. In 188 BC Perge came under Roman rule, and rose to become one of the greatest cities in Asia Minor. The ruins of this ancient city include a theatre, a temple and a palaestra. Perge's acropolis dates back to the Bronze Age.
